

# PALLAVI CHILUVERU

B.Tech student in Information Technology

+916304922090 | pallavichiluveru537@gmail.com | pallavi-chiluveru | Pallavi-Chiluveru | Leetcode | HackerRank | Hyderabad, India

## SKILLS

|                          |                                                                                          |
|--------------------------|------------------------------------------------------------------------------------------|
| Programming Languages :  | Java, C, JavaScript, html , css                                                          |
| Frameworks & Libraries : | Node.js, Socket.io, RESTful APIs, Express, React                                         |
| Tools & Platforms :      | Git, GitHub, Docker                                                                      |
| Databases :              | MySQL, MongoDB                                                                           |
| Soft Skills :            | Communication, Teamwork, Problem Solving, Critical Thinking, Time Management, Creativity |
| Languages :              | English, Hindi                                                                           |

## PROJECTS

**Eduvance – AI-Powered Learning Management System** | Github Website Dec 2025 - Mar 2026

Individual Project

Developed a **role-based LMS web application** with Student, Teacher, Parent, and Admin portals for managing lectures, tests, and performance tracking.

- Implemented **chapter-wise assessments, flashcards, and progress heatmaps** to enhance student learning efficiency.
- Integrated an **AI-based doubt clarification assistant**, improving query resolution efficiency by **~70%** during exams.
- Built **teacher test-creation and evaluation modules** with interactive analytics dashboards using Chart.js.
- Designed scalable backend APIs and database structure, achieving **~85-90% functional completion** and smooth user interaction.

**Technologies / Tools Used** : React, Express, Node.js, MongoDB

**Ambulance Tracking System** | Pallavi-Chiluveru

Jul 2025 - Nov 2025

Developer

- Developed a **web-based emergency routing system** with **2 user modules** (patient and driver) to connect patients with nearby ambulances quickly.
- Implemented **real-time location tracking and shortest-path routing**, reducing estimated response time by **30%**.
- Designed scalable **REST APIs and MongoDB database**, supporting **multiple concurrent requests** with **85-90% system reliability**.
- Created a **dashboard** to monitor ambulance availability and request status, improving system visibility and management.

**Technologies / Tools Used** : JavaScript, Node.js, Socket.io, RESTful APIs

## WORK EXPERIENCES

**Hospitality Member** | Full-time

Jul 2025 - Present

Coding Club AU

Anurag University

Hospitality Member | Coding Club AU

- Organized** 5+ coding events, workshops, and hackathons for **university students**.
- Coordinated** a team of 10 for event logistics, registrations, and **participant engagement**.

**Skills** : Event Coordination, Communication, Team Collaboration, Community Engagement

## EDUCATIONS

**Anurag University**

Aug 2024 - Present

Bachelor of Technology in Information Technology

CGPA : 9.18

- Relevant Coursework**: Data Structures, OOP (Java), Computer Organization, SQL, Operating System

- Projects**: Student Exam Preparation Web Application, Ambulance Tracking System

**Narayana Junior College**

Apr 2022 - May 2024

Intermediate Higher Secondary Education

CGPA : 98.5%

**Johnson Grammar School**

Feb 2021 - Apr 2022

Secondary School

CGPA : 91.8%

**Strong academic foundation in Mathematics and Science**

## CERTIFICATIONS

**Programming in Java – NPTEL (Elite + Silver)**

Issued Nov 2025

**Credential ID** NPTEL25CS110S358204437

## COURSE COMPLETION

**1. AI Agents – Certification**

Learned architecture of autonomous **AI agents**, task planning, and workflows.

- Built **AI agent** pipelines using LLM-driven decision making.

**2. Introduction to Prompt Engineering**

- Learned techniques for designing effective **prompts** for Large Language Models.
- Explored zero-shot, few-shot prompting, and **prompt optimization** strategies.

**3. Introduction to Google Gemini**

- Explored **Gemini API** usage and multimodal AI capabilities.
- Built **AI-powered applications** using Gemini models.

**4. SQL (Basic) – HackerRank**

- Demonstrated proficiency in **SQL queries** including joins, filtering, and aggregation.
- Credential ID: C3AD358BE55E

**5. Python (Basic) – HackerRank**

- Demonstrated **Python programming fundamentals** and problem-solving skills.
- Credential ID: A1CCCF6C6157

## PROFESSIONAL SUMMARY

Dedicated B.Tech student in Information Technology with a strong foundation in **programming** and **data structures**. Quick learner committed to continuous improvement and eager to contribute **technical skills** to impactful projects. Seeking an internship to apply problem-solving abilities and gain hands-on industry experience.
